RESPONSE TO RESTRICTION REQUIREMENT  
AND PRELIMINARY AMENDMENT

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Official Action mailed February 18, 2005, Applicants submit the restriction is moot in view of the present preliminary amendment. However, should the preliminary amendment not be entered, Applicants elect with traverse, Group 1, Claims 1-23, classified in class 709, subclass 224. Applicants submit the claims of the present invention appear to be part of an overlapping search area. Accordingly, Applicants also respectfully traverse the outstanding restriction requirement on the grounds that a search and examination of the entire application would not place a *serious* burden on the Examiner, but would place a substantial burden on Applicants to prosecute three separate applications.

Prior to examination on the merits, please amend the above-identified patent application as follows:
